PROFESSIONAL SUMMARY

Motivated Software Engineering undergraduate with hands-on experience in backend and full-stack web application development using Java, Spring Boot, Node.js, React.js, and RESTful APIs. Skilled in building scalable applications, database management, authentication systems, and microservice-based architecture. Passionate about enterprise software engineering, clean architecture, and problem solving in Agile development environments.

TECHNICAL SKILLS

Programming Languages: Java, Java EE, JavaScript, Python, Node.js, PHP

Web Development: HTML5, CSS3

Frameworks & Libraries: Spring Boot, Hibernate, React.js, JSP, Servlets, REST APIs, JWT, Spring Security

Database Management: MySQL, PostgreSQL, Firebase, Oracle database

Tools & Platforms: Postman, Swagger, VS Code, Spring Tool Suite, IntelliJ IDEA, Docker, Kafka

Version Control: Git, GitHub

Architecture & Patterns: MVC, DAO Pattern, Microservices, SDLC, Agile Methodologies

Data Formats: JSON, XML, SQL

PROJECTS

Microservices-Based E-Commerce System

2026 | Individual

Tech Stack: Java, Spring Boot, Spring Security, JWT, MySQL, REST APIs, API Gateway, Google OAuth 2.0, Maven

- Designed and developed a microservices-based e-commerce platform using Spring Boot with services for authentication, product management, order processing, and payment handling. Implemented secure authentication and authorization using Spring Security, JWT, BCrypt encryption, and Google OAuth 2.0 integration. Developed RESTful APIs, integrated API Gateway for centralized routing, and configured MySQL with Hibernate for scalable data management.
- Link: <https://github.com/tharanahasintha/Sellestra>

Full-Stack Library Management System – Librioo

2026 | Group

Tech Stack: Spring Boot, React.js, Firebase, MySQL, REST APIs, Hibernate, Railway

- Developed a full-stack library management system with role-based authentication, real-time activity tracking, and assistant robot integration using Spring Boot and React.js.
- Built secure RESTful APIs for managing books, users, and borrowing operations while integrating Firebase Authentication and Firestore for real-time synchronization. Deployed backend services to Railway and implemented responsive frontend interfaces with protected admin functionality.
- Link: <https://librioo.lk> GitHub: <https://github.com/projectlibrioo-source/librioo-system>

Online Voting System – SmartVoteSL

2025 | Individual

Tech Stack: HTML5, CSS3, JavaScript, Node.js, Firebase, QR Code API

- Engineered a secure online voting platform with voter registration, QR code-based authentication, and real-time vote counting functionality. Implemented Firebase Authentication, Firestore, and Realtime Database for secure voter management and live election result synchronization. Developed a responsive admin dashboard for candidate management, election monitoring, and real-time analytics.
- Link: <https://github.com/tharanahasintha/voteapp>

Dynamic Email Client – Offline Gmail Clone

2025 | Individual

Tech Stack: Java, JSP, Servlets, JDBC, MySQL, Apache Tomcat, MVC Architecture

- Developed a dynamic email management system replicating core Gmail functionalities including inbox, sent mail, drafts, and CC/BCC handling. Implemented MVC architecture and DAO design pattern using Java Servlets and JSP to improve maintainability and separation of concerns. Integrated JDBC with MySQL for persistent email storage and deployed the application using Apache Tomcat server.

EDUCATION

BEng (Hons) in Software Engineering

2024 – Present

University of Westminster (IIT), Colombo, Sri Lanka

G.C.E. Advanced Level – Physical Science Stream

2023

Mahanama College, Colombo | Combined Mathematics: C | Chemistry: C | Physics: S

PROFESSIONAL CERTIFICATIONS

Industrial / Enterprise Software Development Program

- Advanced training in Java SE, Java EE, Spring Boot, Maven, and Python with practical exposure to enterprise-level architecture and coding standards.

LANGUAGES

English (Professional) | Sinhala (Native)

PERSONAL SKILLS

Communication | Problem Solving | Teamwork | Analytical Thinking | Leadership
